HIGH SPEED INTERNET ACCESS

We are equipped with a hard wired Ethernet solution. With a robust T-1 data pipe you can access the Internet in our meeting rooms for a nominal charge. Using a dynamic addressing protocol, the process to connect to this bandwidth is easy and reliable. Security of your data is important and our system was designed with this in mind.

Our key features are:

- Always on Internet at T1 speed
- CAT5E certified cabling to each room. (The Ethernet network interface card required is standard on most laptops.)
- We also have the ability to setup additional hubs in our meeting space to accommodate larger groups.
- Dynamically Host Control Protocol (DHCP) enabled – Automatically assigns an IP address via DHCP. No additional software required.
- Cisco Firewall protection.
- Public Internet Protocol address assignments for easy VPN access.

There are various levels of charges for the above services. Please contact the Catering Department for more detailed information.

Or remove this above verbiage and put in your HSIA charges

TECHNOLOGY ASSISTANCE

Technical Assistance is included in basic Packages. In-Room Technicians and Equipment Operators, or Set Up and Take Down of all equipment outside the standard packages incur additional labor charges. Guests bringing their own equipment or equipment supplied by another vendor are responsible for the set-up, operation, and security of their equipment. If technical assistance is requested, a minimum labor fee of \$50.00 will be applied to guest's account.

All prices are daily unless otherwise noted and are subject to change based on equipment availability at the time of request.

~ \$75.00 Rush delivery charge will be applied to any request less than 12 hours prior to meeting start time.

~ All Audio Visual Equipment and Services are subject to a taxable 21% Service Charge and applicable state sales taxes.
